PROJECTS

➤ **GST BILLING SOFTWARE**   Jan 2023 - Mar 2023

I spearheaded the creation of an efficient GST billing solution, making use of **Semantic UI** to craft a user-oriented experience. Recognizing the customer's specific requirement for a customized billing application to manage both GST billing and their transactions, I designed an engaging and **responsive interface** that not only simplifies navigation but also **elevates user interaction**.

➤ **HOTEL MANAGEMENT SOFTWARE**   May 2023 - Jun 2023

I handled the **front-end** development efforts for a comprehensive hotel management project, skillfully merging creativity with user-centric design principles to produce an intuitive and visually appealing user interface. The client expressed immense satisfaction with the project, particularly appreciating our ability to meet their specific needs.

➤ **E-COMMERCE WEBSITE**   Jul 2023 - Aug 2023

I undertook the responsibility of **front-end and back-end** development for Aarudhraa Organics, a pioneering organic company. Additionally, I managed the hosting aspects, guaranteeing the website's consistent accessibility and performance. This dual role highlighted my adeptness in both **front-end and backend** work contributing to a robust online presence for the company.

➢ **COLLEGE MANAGEMENT SYSTEM**   Sep. 2022 - Present

Developed a comprehensive college management project, overseeing both **front-end and back-end development**. My responsibilities encompassed designing an intuitive user interface for improved accessibility and enhancing the back-end infrastructure for seamless data management. Throughout this project, I successfully **led and managed a dedicated team**. I take pride in the launch of the **EDUCONNECT** application on 11.9.2023, a significant milestone that reflects our collective hard work and dedication. I am excited about the positive impact this achievement will have on the educational institution and its users, showcasing my ability to deliver impactful projects.
